**FASHION DESIGN
ABOUT THE COURSE**

The four-year diploma programme encourages students to develop their creative style and artistic vision while gaining essential technical, communication, and research skills. In one-to-one tutorials and through conceptual guidance with the internationally acclaimed fashion designers at the helm of the Department, students generate ideas, develop concepts and create and present individual, innovative and visionary women's and/or men's wear collections. The central artistic subject focuses on developing a holistic design vision by exploring traditional European fashion knowledge in dialogue with a global cultural heritage and an awareness of sustainable design choices.

Graduates either found their own fashion labels or launch careers at existing national and international labels and/or fashion houses.

Thanks to the continued high quality of the training it offers and its many successful graduates, the Fashion Department is one of the most important fashion education institutions worldwide.
