

Invitation: RESEARCH DAYS 2026

Dear Colleagues,
Dear Researchers,
Dear Doctoral Students,

We warmly invite you to participate in the **Angewandte Research Days 2026**, which will take place from October 13 to 15, 2026, in the Atrium and Auditorium of the Angewandte, Vordere Zollamtsstraße 7.

The Research Days offer researchers within the institutional framework of the University of Applied Arts Vienna the opportunity to present and discuss research projects and activities and to promote further exchange. With this platform for research, we aim to increase the visibility of your work and support dialogue about research activities at the university. We invite colleagues with their research projects and doctoral students to share their research experiences and (preliminary) results. An exchange with invited internal and external respondents is intended to make the range of feedback as rich as possible. Additionally, this presentation will count as another public interim presentation as part of your doctoral program, in the presence of your primary supervisor.¹

To participate in the Research Days, please send a brief description of your current research interest (abstract, 300 words) to sdkf@uni-ak.ac.at by **May 29, 2026**. This submission serves as an expression of your interest in participating in the Research Days.

Once the program has been finalized, we will ask you to submit a longer text (1,300 words) and an image/visual element (poster presentation) by July 24, 2026. Further information will follow after registration!

We appreciate your interest and look forward to hearing from you!

Warm regards,
Alexander Damianisch
On behalf of the Support Art and Research Team

Angewandte Research Days
October 13–15, 2026

Event location
Atrium & Auditorium
Vordere Zollamtsstraße 7
1030 Vienna

Schedule
